

Query 1: Most Popular/Purchased Music Genre

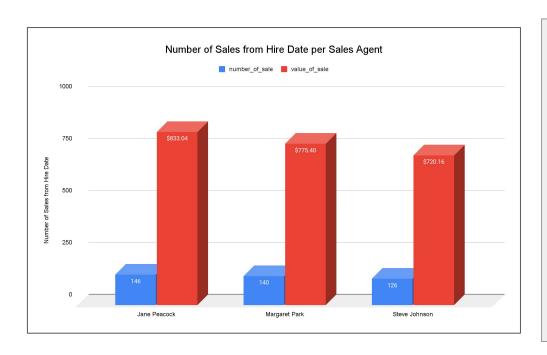

Based on this Data Visualization we can see that the Rock Music Genre has more than double the amount of Metal Sales. It can be concluded that the Rock Genre is the most popular and most purchased genre followed by Latin, Metal, Alternative & Punk (Top 4 Genres by total Sales)

Query 2: Percentage of Sale per media type

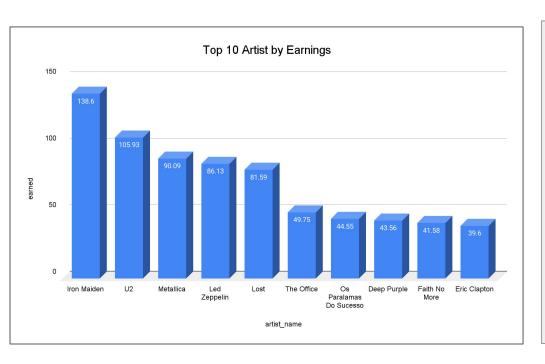

88.21% of all sales were the MPEG Audio File Media type. This shows that most consumers are purchasing music in the MPEG Audio File format. The least popular file format is AAC Audio File with only .13% of purchases being made in this file format.

Query 3: Agent Sales Totals from Hire Date

This Data Visualization shows the top three Sales Agents and the total number of sales and the total value of their sales from their hire date. Jane Peacock has a total of 146 sales making her the top sales performer with \$833.04 in total sales value. Closely followed by Margaret Part with 140 total sales and \$775.4 in total sales value.

Query 4: Top 10 Artist by Earnings

This Data Visualization shows the Top 10 Artist by Earnings. You can see based on this data that Iron Maiden has the highest gross earnings.

The lowest earning artist in the Top 10 is Eric Clapton. If you were wanting to bring in an artist for a concert and want to have the most revenue; Iron Maiden would be an excellent choice.
